## Parkland 20” Steel Waterline Replacement Project – 00848.048

Project Description: Replace an aging and failure prone 20” steel waterline that runs along Washington, Copper and San Mateo streets. Also replace 4” and 6” cast iron waterlines in Idlewild and Alvarado and an 8” cast iron waterline in Central.

Project Schedule (subject to change): Construction is scheduled to last through late 2018. A tentative schedule included.

- Beginning August 27, 2018 – on Copper between Washington and San Mateo. Work expected to last 45 days.
- Remove existing waterline and install 6” distribution waterline – replace water meters when necessary
- Crews will re-pave areas after completion of pipe installation

During construction, roadway access may be restricted. Detours will be clearly marked. Access will be maintained to all residences and businesses. Regular work hours will be 7 a.m. to 5 p.m. Monday through Friday.
